Marine Debris Webinar

Laws, Policies, & Practices for Plastic Reduction & Prevention in the Great Lakes

June 13th,
3:00 pm EST

*Haley Dalian, Great Lakes Regional Coordinator, NOAA Marine Debris
Jill Bartolotta, Ohio Sea Grant Extension Educator
Terra Bowling, Research Counsel II, National Sea Grant Law Center*

The NSGLC will host a webinar **June 13th at 3:00 pm EST** to discuss **Laws, Policies, and Practices for Plastic Reduction and Prevention in the Great**

Lakes. Haley Dalian, Great Lakes Regional Coordinator for the NOAA Marine Debris Program, will present on the issue of marine debris and the NOAA Marine Debris Program. Jill Bartolotta, Ohio Sea Grant extension educator, will give an overview of plastic reduction work in the Great Lakes. Terra Bowling, Research Counsel II for the National Sea Grant Law Center, will highlight a recent memo on nationwide efforts to ban plastic bags and Styrofoam, as well as two plastic bills in Congress and the United Nations' Global Plastics Treaty.

The NSGLC hosted a second webinar on the [State Marine Aquaculture Policy Dashboard](#) on May 29th, 2024. During this webinar, there was a brief reintroduction of the Dashboard, followed by testimonials from the user community, and a sneak peek into our best practices research.

Research

The introduction and spread of aquatic invasive species (AIS) pose a threat to aquatic systems. One primary pathway that allows AIS to be moved and introduced to new ecosystems is commerce: the plant and animal trade. As part of a collaborative project funded by the U.S. Department of Interior, the NSGLC developed a [case study series](#) to explore the current legal framework governing commercial trade of aquatic species and the challenges to mitigating risks from this pathway. The most recent case study on the [Pet Store pathway](#) is now available on our website.
